

## Facility Utilization

### Relationships with Local Governmental Units

The Board will make every effort to work cooperatively with other governmental units that may have an interest in the construction of new District facilities, or the remodeling or utilization of present facilities.

In the District, the City of Racine, the Villages of Caledonia, Mt. Pleasant, Elmwood Park, North Bay, Sturtevant and Wind Point will be informed and consulted where necessary as new facilities are planned, constructed and utilized. If questions regarding new facilities are presented by representatives of these governmental units, every effort will be made to respond with the requested information as soon as is practical.
