Message from the Superintendent

August 2023

Dear Racine Unified Stakeholder,

On behalf of the Racine Unified School District (RUSD), I would like to welcome you to the 2023-2024 school year and this year's RUSD Student Code of Rights & Responsibilities.

RUSD continues to be committed to ensuring our students are college, career and life ready through building their emotional skills, work habits, self-confidence, self-control and other character traits which are important aspects of a well-rounded, educated person. It is our priority to ensure that we provide a safe, welcoming and positive learning environment for all students, staff and families every day. This priority speaks directly to the need for this Code of Rights and Responsibilities.

Every school must build a culture that is positive and focused on ensuring our students acquire appropriate social and behavior skills and each school is a safe place for all to learn. This Code of Rights and Responsibilities and the practices it supports ensure that our approach to addressing student misbehavior is timely, consistent and fair.

We are grateful for the excellent work that many talented people have put into developing the RUSD Code of Rights and Responsibilities. That team consistently reviews the effectiveness and consistency of our discipline practices and makes changes each year to best support our students and school communities. Our goal is to continuously improve our support and guidance to each teacher, building leader and discipline decision maker. We are confident that is Code of Rights and Responsibilities, along with the work underway to train and support our teachers and building leaders, will assure that every school is a positive, nurturing environment for learning and that RUSD does "Educate Every Student to Succeed" – academically, socially and emotionally – for success in school and the world of work and life.

Yours in education,

Soren Gajewski
Interim Superintendent

Creating a Positive Learning Environment for All Students

Racine Unified School District has a vision that all of our schools will prepare our students to experience success and preparedness for college, career and community. In order to achieve this, each of our schools must be a place where students are academically challenged and where they are able to achieve at their highest levels. To be successful academically, socially and emotionally, children need to learn a set of social and emotional skills that include self-control, self-management, self-awareness, social awareness, relationship skills, and responsible decision making.

Student success in school is directly correlated to the positive experiences they have, whether academically, socially and/or emotionally. Behaviors that are in violation of the Code Book, such as bullying, harassment, physical violence, etc... negatively impact students directly and indirectly, and as such will not be tolerated, and can result in removal from the school environment.

National and local data reflects grave disparities for certain sub-groups of students. In order to compact the disproportionality among sub-groups, RUSD is focused on providing safe and supportive learning environments for all students, employing culturally responsive, trauma-sensitive, and positive reinforcement strategies that reflect our respect and appreciation of all sub-groups, all students, all families and all staff. We use data, evidence-based teaching practices and strategies to increase academic performance, improve safety, decrease problem behavior and establish a positive school climate.

The District continues to move toward policies that do not exclude students from the learning environment, utilizing a more proactive approach, utilizing positive interventions and reinforcement, recognition of cultural influence, and understanding of traumatic experiences to create an environment where all students can thrive. We will continue to grow and change in order to meet the needs of our students, utilizing these approaches to discipline and behavioral expectations to create learning environments and social communities where students will be informed of and taught academic, behavioral, social-emotional expectations and be given opportunities to learn from their behavioral choices. This plan holds all students to high and equitable standards of success while providing different approaches of support that will assist them in achieving positive academic and behavioral growth.

Our Process of Revision

A very special thank you to those who participated in the Code Book Review Committee, for their time, commitment, and valuable input that helped develop the revisions to the Code Book, allowing for better service to the students and staff of RUSD.

Student Attendance and Absences

Wisconsin law requires all children between the ages of six and 18 to attend school full time. A child who has turned 18 must attend until the end of the term, quarter or semester following his or her 18th birthday.

Research shows that missing 10%, or about 2 days each month over the course of a school year, can make it harder to achieve academic success, including learning to read. The US Department of Education has found that students who are chronically absent, meaning they miss at least 15 days of school in a year, are at-risk of falling behind in school. Students missing fewer than 5 days of school per year make significantly higher gains.

The state of Wisconsin and the Racine Board of Education set policies for student absences. They are summarized below.

When to Keep a Child Home From School

School is important, but sick children need to be at home. Once a child's condition improves, and they have been fever free without the use of fever-reducing medication for 24 hours, they can return to school. Be certain that the school has current telephone numbers to reach you at all times in case your child becomes ill or injured. If any of the following conditions exist, please keep your child home from school:

- Severe cough and/or congestion
- Shortness of breath or difficulty breathing
- Fever (temperature of 100 degrees or greater) and/or chills
- Vomiting or diarrhea
- Quickly spreading or blistered rash
- Any illness that disrupts learning
- If your child has been diagnosed with any contagious illness
- Recommendation by a healthcare provider or health department to keep the child home

Excused Absences Defined – It is the responsibility of parents/guardians to notify the school as soon as possible when your child will be absent. Parents/guardians have the right to excuse a child from school for up to ten (10) days per year. Any absences beyond ten (10) days will be considered unexcused, unless a note is presented from a service provider.

Parents/guardians will be notified via letter when the excused absences reach the equivalent of seven (7) days, and again when the excused absences reach the equivalent of ten (10) days.

It is expected that parents/guardians will make every effort to schedule medical, dental, and other healthcare appointments for students outside of the hours of the school day. In instances where that is not possible, parents/guardians should present the school with a note from the provider. Notes may be presented following any appointment. It is not necessary to wait until the student has already been excused for the allowable ten (10) days. A parent/guardian may provide documentation for an absence within two weeks (14 days) of the initial absence.

The following are valid reasons for your child to miss school and are considered excusable absences:

- | | |
|-----------------------------|---------------------------------|
| -Illness | |
| -Funerals | - Designated religious holidays |
| -Medical/dental appointment | - Vacation |
| -Family emergencies | - Required legal appearances |

Class Drop/Course Withdrawal:

The following guidelines for withdrawing from a course are to be used at every high school (including 6-12 buildings) in the Racine Unified School District:

1. *Withdrawals during the first two weeks of a semester:* Student receives no credit and no grade. No record is made on the student's cumulative record. For students withdrawing from the school, no record of enrollment is made other than dates of entrance and end date.

2. *Withdrawals after the second week and before the completion of the fourth week of the semester:* If a student withdraws from a course between second and fourth week of the semester, the course will be listed on the student transcript as a withdrawal and will not affect grade point average (GPA). Courses dropped in this time frame may not be removed from the student's transcript.

3. *No withdrawals after 4 weeks into semester:* extenuating circumstances will be reviewed by counselor, parent, and building administration.

If illness warrants a grade of incomplete, the student will be expected to complete the remaining work no later than the last day of the following quarter in order to receive an official grade.

Withdrawal from the District:

Students withdrawing from Racine Unified School District may request their transcript as well as their current grades earned up to the date of withdrawal. The current grade is recorded as in progress and the receiving school or District will determine credit status based on the current grade report. It is important to note that students withdrawing from the District will remain enrolled, and accumulate absences, until a request for records is received from another school or district.

Any questions regarding Class Drop/Withdrawal policy in reference to atypical situations are to be directed to the Chief Academic Officer.

Illness or Accident at School

In the event of a student illness or accident at school, a reasonable attempt will be made to notify the parent/guardian promptly. Students who show signs of an infectious illness that meets criteria set forth by the American Academy of Pediatrics will be excluded from school. Parents are expected to pick up their student within 2 hours. Parents are responsible for providing and maintaining updated emergency contact information for their child in the Infinite Campus Parent Portal, which includes the names of the parent/guardian and available parent/guardian substitute(s) designated and must include a proper means of contacting such person(s). In the event of an emergency, a decision will be made by the school administrator or their designee to contact 911. If the student requires transportation to the nearest emergency department, the parent/guardian is responsible for treatment and/or expense.

Special Programs

Parents may request special or modified programs such as homebound instruction, as an alternative to school attendance. Approval must be given by the Board of Education or their designee.

Truancy and Habitual Truancy

Truancy is defined as any absence from school for part or all of one or more days without contacting the school in writing or by phone to explain the absence. Absences beyond the ten (10) excused allowable by Wisconsin §118.15 are considered “unexcused” and may be viewed in the same manner as a truancy when pertaining to attendance expectations and legal requirements.

Habitual Truancy is when a child has been truant from school for part or all of five (5) or more days during a semester.

The parent/guardian of a student who is habitually truant may be referred to court, pursuant to Wisconsin 118.15

1. For the first offense, the court may order a fine of not more than \$500 or imprisonment for not more than 30 days or both.
2. For a 2nd or subsequent offense, the court may order a fine of not more than \$1,000 or imprisonment for not more than 90 days or both.
3. The court may require a person to perform community service work for a public agency or a nonprofit charitable organization.
4. The court may order any person who violates this section to participate in counseling at the person’s own expense or to attend school with his or her child, or both.

Schoolwork Missed During a Period of Absence

- No public school may deny a student credit in a course solely because of the student’s excused or unexcused absences from school.
- The teacher(s) will provide an opportunity for a student who is absent to make up work without being penalized for their absence within a reasonable length of time. Students must be given an opportunity to make up examinations missed during absences. The weight given to make-up examinations and the time limit within which the examination(s) must be taken will be determined in accordance with the written grading policy of the individual classroom teacher. Teachers may mark a student’s report card incomplete “I” with the stipulation that work must be completed in order to receive credit for missing work. At the end of the following quarter, the teacher will submit a letter grade to replace the incomplete. There are to be no incompletes at the end of the year unless special arrangements are made with the student, parent, teacher and principal.
(§118.16)

Guidelines for Medication Administration

Prescription Medications

Prescription medication can only be administered to students by Racine Unified School District (RUSD) personnel with the written consent of BOTH the parent/guardian and a licensed physician. The written request for administration of prescription medication must be made on the RUSD Physician's Medication Request form which is found on the District's website or at your child's school. Verbal requests will not be accepted. School District personnel will not administer any medications that are not specified on the RUSD request form. All request forms must be renewed each school year or when the prescription changes.

For the safety of students and others, an adult should bring the medication to the school. Any other arrangements for getting the medication to the school needs the approval of the school's principal and/or school nurse (RN).

Self-Administration of Prescription Medications

In compliance with Wisconsin state statutes 118.29(1) and 118.29(2)(1v), any student, regardless of age, may carry and self-administer asthma rescue inhalers and/or epinephrine auto-injection systems for severe allergic reactions and anaphylaxis, so long as the Prescription Medication form, as referenced above, is completed and signed by BOTH the parent/guardian and a licensed physician indicating that in their opinion the student is knowledgeable about the medication and is able to self-administer it, and is on file with the school nurse.

Students may not carry or self-administer narcotic medications or Level II Controlled Substances.

Only students in grades 9 – 12 may carry and/or self-administer non-narcotic prescription medication when a RUSD Physician's Medication Request form is on file at the school signed by BOTH the parent/guardian and the licensed Physician stating that in their opinion the student is knowledgeable about the medication and is able to self-administer it.

School District personnel may prohibit the self-administration of medication if it is their good faith belief that the medication is being improperly used, stored, or that the school district's policy requirements are not being met. The parent/guardian will be promptly notified of this decision by the school's principal.

Non-prescription Medications

A non-prescription medication is defined by statute as "any non-narcotic drug product which may be sold without a prescription order and which is prepackaged for use by consumers and labeled in accordance with the requirements of State and Federal Law."

Requests must be made using the District's Non-prescription Medication Request form, available on the RUSD website. Non-prescription medications must be in the original, sealed manufacturer's package with legible labeling that lists the medication's ingredients and the Food and Drug Administration (FDA) recommended therapeutic dose. RUSD personnel will only administer the recommended therapeutic dose of a non-prescription medication as found on the package label.

For the safety of the student, a written request from the parent/guardian and a licensed physician using the RUSD Physician's Medication Request form is required if:

- The dose of the non-prescription medication is other than the recommended therapeutic dose found on the package label.
- The non-prescription medication is requested to be given in combination with other non-prescription medications.

Self-Administration of Nonprescription Medications

Students in grades 9 – 12 may carry and self-administer non-prescription medication, but ONLY when a Non-prescription Medication Request form is on file at the school signed by the parent/guardian stating that in their opinion the student is capable of doing so. If a student carries and self-administers medication at school without the properly completed form on file, they could be in violation of the District's Code Book. Permission to self-administer medication can be rescinded if it is the good faith belief of the principal and the school nurse (RN) that the medication is being used or stored inappropriately.

Immunizations

The State Immunization Law (Chapter 252.04) requires that students receive a minimum number of immunizations to attend school. The law is meant to protect everyone in the school from vaccine preventable diseases such as measles, mumps, and pertussis (whooping cough). The number and types of vaccines the law requires vary with the age and the grade of the student. Please check the District's website, contact the RUSD Office of Health Services, your child's school, or your local health department for the current requirements and where to get the vaccines. Failure to have your child vaccinated can not only lead to their suffering from the disease but also potential exclusion from school for up to 5 days, court action, and/or a fine up to \$25.00 per day of violation.

School Fines and Fees

Fees: The Racine Unified School District, through the Finance Department, has established various school fees which are allowed by District policies, state law and appropriate federal guidelines. School fees include amounts authorized for but not limited to classroom supplies, use of textbooks, field trips, meals, athletics and activity participation, music instrument use, parking, activities admission, activities materials, AP/IB/PSAT exams and enrichment classes. School fees can be waived on a yearly basis for those families who qualify for the Free or Reduced-Price Meal Program via Direct Certification or are determined eligible for educational benefits by submitting a qualifying Alternate Household Income application and have completed the Sharing Information with Other Programs form. Transportation fees, athletic materials fees and parking fees do not qualify for fee waivers.

Fines: Textbooks, library books, Chromebooks, tablets, calculators, instruments or any other materials furnished for use by a student attending Racine Unified School District shall be returned to the class teacher, or the designated school representative, at the end of the course or activity, or if the student leaves the District. The student's parent/guardian shall be responsible for the cost of replacing all materials that are issued and not returned. Fines will be assessed at cost for lost or damaged materials including but not limited to library books, textbooks, student IDs, locks, property or technology damage.

Unpaid Meal Charges: The parent/guardian will be responsible for all unpaid food or beverage charges for their child(ren) from current or previous years for the purchase of à la carte items, which may include milk, or second meals.

Payment of Fines and Fees: Fees and fines can be paid via cash or check at any school location, or online via a debit/credit card or eCheck. No service fees will be charged for online payments.

Nonpayment of Fines and Fees: District policy specifies all fines and fees must be paid in full or waived in order to participate in athletic activities, high school dances, the graduation commencement or utilize school parking. The District may submit unpaid fines and fees to a collection service for recovery.

Athletic Fines and Fees: Students that do not return athletic equipment will not be allowed to participate in further athletic activities until items are returned or reimbursement for replacement is received.

Notification of Fines and Fees: You may view your child's food service account balance, history of purchases, or make payments by logging into the Parent Portal on the Infinite Campus Student Information System. All families with outstanding balances receive monthly email notifications through Infinite Campus, as long as the family has a valid email address on file.

All RUSD school must identify behavior expectations that reflect the following district-wide expectations:

Be Kind and Respectful
<ul style="list-style-type: none">• Understand and accept the valuable contributions of others, especially those from backgrounds and cultures different from your own• Engage in peaceful and collaborative problem-solving• Treat all others as you would want to be treated• Treat all property with respect and care
Be Safe
<ul style="list-style-type: none">• Be an ally and/or an upstander and report all instances of bullying, harassment and unsafe behaviors• Engage in positive behavior• Make positive connections with staff and/or peers• Seek adult support to aid in conflict resolution to solve problems and avoid physical or verbal confrontations
Be Responsible
<ul style="list-style-type: none">• Accept responsibility for your choices and actions• Be on time and ready to learn, with necessary learning supplies and materials• Know and follow all school rules and expectations• Contribute positively to your school community

Discipline in school is defined as a process that uses teaching, modeling and appropriate consequences to change unacceptable behavior in order to ensure a safe, orderly and productive learning environment. Every student has the right to learn and be safe and no one has the right to interrupt learning or make others feel unsafe.

Intervention and Discipline

We understand that students will make mistakes and that it is our responsibility as a school community to help them learn from these mistakes and to support them in creating a new path. It is our belief that all staff should make every effort to identify student misbehavior and intervene early in order to support good decision making and help our students grow not only academically by missing fewer classes due to misbehavior, but also to help students grow socially and emotionally.

All interventions used by staff should be designed to help students:

- Understand why the behavior is not acceptable.
- Take responsibility for their actions.
- Understand what could have been done differently.
- Learn about how to interact or behave differently in order to avoid harm to self or others.
- Understand that continued behavior can result in further intervention or disciplinary consequences.

If classroom interventions have not been successful, teachers and other staff may refer the student to the building administrator through an office discipline referral. The referring staff member must include all pertinent information, including previously attempted interventions.

Determining Interventions and Discipline

The BEHAVIOR CHART on the following page provides a guide for all school staff when making decisions on how to respond to student misbehavior. When using this chart, it is important for staff to consider the following:

- The student's age, maturity and understanding of the impact of their behavior.
- The student's willingness and ability to repair harm caused by the behavior.
- The student's behavior record, prior infractions, previous interventions and the results of those interventions/disciplinary actions.
- The nature of the behavior.
- The circumstances of when behavior occurred.
- The student's special education plan or 504 plan if applicable.

Threat Assessment Expectations and Protocol

A threat assessment is designed to evaluate a behavior to determine the likelihood of violence and prevent a crime.

Racine Unified has adopted the CSTAG (Comprehensive School Threat Assessment Guidelines) model for use in determining whether an exhibited statement or behavior poses a threat to a person, persons, the school, or the District.

Several behaviors outlined in this Code Book are identified with "Implement Threat Assessment Protocol," as these identified behaviors will most often require said process. However, it is important to note that regardless of the identification in this Code Book, a threat assessment may be conducted any time that there is a threatening statement or behavior made.

A threat assessment is conducted if there is any reason to be concerned about a student's threatening statement or behavior.

Threat assessment is a school-based team process that can be documented by any member of a school's Threat Assessment Team.

- Each school shall identify a School Threat Assessment Team. The school team must include the building principal or assistant principal. Additional team members may include the SRO, Dean, Counselor, Social Worker, or other support staff deemed appropriate.
- Minimally, a threat assessment may be completed by one member of the team in consultation with other team members. Significant threats are strongly recommended to engage multiple team members.

Behavior Response Levels

This Code Book of School Rights and Responsibilities outlines FIVE Response Levels to student misbehavior. **Administrators and school staff are expected to use only the Response Levels identified for each behavior. IF the behavior is assigned to TWO or more Response Levels, the lowest Response Level should be used first.**

For example: If a student leaves the classroom without permission, which is listed as both a Response Level 1 and Response Level 2, the first Response Level should be applied prior to moving to Response Level 2.

During the course of the school year, a student's first violation of a given expectation of the Code of Rights and Responsibilities will most often result in intervention and discipline of a lesser Response Level, when taking into account all factors related to the violation. Behavioral intervention may include but is not limited to: Referral for PBIS Tier 2 intervention, Problem-solving Conference, Behavior Support Plans, requests for Student Support Plans, requests for Student Support Teams (SSTs), among other available interventions. However, in instances where student conduct significantly impacts the physical and/or mental health and/or safety of others, significant disruption to the learning environment, or significant property damage, a higher Response Level may be assigned even if it is a first offense. The use of a higher Response Level may be determined by the school level administration. All Response Level increases that may result in an expulsion hearing must be submitted to and approved by District level administration.

Surrender for Safety: Inappropriate Items/Materials

A student who is in possession of any weapon, other than a firearm, or an object that can be used as a weapon, or any other inappropriate item such as alcohol, drugs or materials (fireworks, etc.) and voluntarily surrenders the weapon or items to a school staff member prior to being found in possession or engaging in harmful behavior, that student will not be assigned a Response Level Discipline. Surrender for safety recognizes that students may make mistakes and may unintentionally bring an inappropriate item to school. Students will receive interventions around this experience in order to learn from these types of mistakes. A student will not be granted this exception more than one time during a school year.

Escalating Factors

During the course of a school year, a student's first violation of a given behavior outlined in the Code of Rights and Responsibilities will most often result in intervention and discipline of a lesser Response Level, when taking into account all factors related to the violation. However, in instances where student conduct significantly impacts the physical and/or mental health and/or safety of others or a significant disruption to the learning environment, a higher Response Level may be assigned even if it is a first offense. The use of a higher Response Level may be determined by the school level administration. All Response Level increases that may result in an expulsion hearing must be submitted to and approved by District Level Administration.

Due Process Procedures for Suspension

The principal, assistant principal or principal designee will hold a conference with any student suspected of behavior that violates the Code of Rights and Responsibilities prior to making a decision to suspend that student. The parent/guardian must be notified before the student is sent home during the day.

Due process during suspension is as follows:

1. The administrator (principal, assistant principal or principal designee) attempts to interview the student in regard to the violation.
2. The administrator will conduct an investigation to substantiate if there was indeed a violation and determine the student's role in the violation. If it is determined the student DID NOT violate the Code Book of Rights and Responsibilities, the case is closed and no disciplinary action is taken. If the student receives a disciplinary suspension, the suspension becomes effective following verbal confirmation of a parent/guardian or at the end of the school day. A suspension letter must be sent or mailed home.
3. Suspended students will be given the opportunity to take any quarterly, semester or grading period examinations or to complete coursework missed during the suspension period.

Suspension for Response Level 3 and Response Level 4

Response Level 3 behaviors will result in a student being suspended from school for up to 3 days, depending on the grade level, unless prohibited by the IDEA and /or state law. Response Level 4 behaviors will result in a student being suspended from school for up to 5 days and includes a reinstatement meeting with the parent/guardian, unless prohibited by the IDEA and/or state law.

Conference and Reinstatement Following Suspension

Following a suspension, the student and parent/guardian will participate in a reinstatement conference with the administrator. If it is difficult to meet with the school at the scheduled time, the parent or guardian should contact the school office to discuss the matter by telephone, virtual meeting, or reschedule a conference with the administrator. The student will meet with the principal at the reinstatement time noted. The student's achievements, as well as difficulties and possible interventions, will be discussed at the reinstatement conference.

Administrative Review Team

The Administrative Review Team (ART) is available for all secondary (grades 6-12) administrators to attend and refer students and families. The team hears cases presented by administrators with the intent of assisting with interventions at the school level or possibly making a determination that the student will be best served in an alternative educational setting.

Expulsion for Response Level 5

Response Level 5 behavior will result in a student being recommended for expulsion from school. The school district's legal authority for expelling a student and the process that must be followed are outlined in Wisconsin State Statutes.

All recommendations for expulsion will be reviewed by the Office of Student Services who will determine whether or not to approve the recommendation based on the evidence presented.

The expulsion recommendation may not be approved when one or more of the following is applicable:

- The Superintendent or his/her designee dismisses the student's suspension that is associated with the recommendation for expulsion based on the suspension appeal procedures.
- There is insufficient evidence to support a recommendation for expulsion.
- Due process procedures were not followed.

Determining District's Knowledge/Suspicion of a Disability

When a non-special education student is recommended for expulsion, the disciplinary principal must consider whether the Racine Unified School District had previous knowledge of a potential special education disability. If any of the following are present, the district is determined to have had previous knowledge of a potential special education disability:

- The parent/guardian, on behalf of a student, expressed in writing that their child was in need of special education and related services.
- The parent/guardian, on behalf of a student, submitted a written request for a special education evaluation.
- School personnel expressed specific concerns about a pattern of behavior demonstrated by the child, directly to the director of special education or school or district level administrator(s).

If any of the following are present the district is determined not to have had previous knowledge of a potential special education disability:

- Parent/guardian refused their permission for an IEP evaluation to take place.
- Parent/guardian refused to allow special education services to be implemented.
- The student had been evaluated and been found not to qualify as a child with a disability.
- The parent revoked consent for special education and related services.
- If it is determined that the district did have previous knowledge about a potential special education disability, a special education referral must be made. All disciplinary action is held until the evaluation.

Rights of Students with Disabilities

Students with disabilities (special education eligible, 504/ADA qualified or students in the special education referral process) are subject to disciplinary procedures. Discipline of these students is governed by the procedural due process requirements in order to guarantee access to a free and appropriate public education.

Functional Behavioral Assessment (FBA) and Behavior Intervention Plan (BIP)

When a child with a disability exhibits severe, chronic, and/or repeated behavioral difficulties, school teams have a responsibility to implement and document positive interventions and proactive approaches toward addressing these challenges (i.e. Functional Behavioral Assessment and Behavioral Intervention Plan) rather than relying solely on exclusionary practices (i.e. suspensions or removals).

School teams must reconvene to examine the child's problem behaviors and attempt to determine when, where, and why they are occurring (FBA), then develop an action plan (BIP) that provides staff with information and understanding about how to best respond when the problem behavior occurs.

Manifestation Determination

If the district is considering a disciplinary change of placement, up to or including a recommendation for expulsion of a child with a disability, the school must schedule an IEP team or 504 meeting to conduct a manifestation determination. A manifestation determination establishes whether the behavior that violated the Code Book of Right and Responsibilities is linked to the child's disability. If the violation is determined to be a manifestation of the child's disability, the IEP team will determine the interventions necessary to meet the student's needs prior to the student returning to school. If the IEP team determines that the action of the child is not a manifestation of the disability, the disciplinary change of placement and/or expulsion may proceed.

Ridership Rules for all District-Provided Transportation

The following rules and expectations have been set in order to ensure that students have a safe ride to and from school:

Be Kind and Respectful
<ul style="list-style-type: none">• Be respectful of the driver, students, and other passengers/riders.• If able, offer your seat to elderly or disabled passengers.• Treat all property with respect and care.• Be respectful of the community and community members around your assigned stop.

Be Safe
<ul style="list-style-type: none">• Obey all safety rules and expectations.• Obey all driver instructions.• Report concerns of unsafe or inappropriate behavior to your school administrator.• While riding, help ensure a safe experience by remaining in your seat, keeping aisles clear, keeping all body parts and belongings inside the vehicle.• Engage with others in a way that does not interfere with the driver’s ability to focus.

Be Responsible
<ul style="list-style-type: none">• Arrive at least 5 minutes early to your assigned stop.• Ride only to and from your assigned stop.• Be responsible for your own items and ensure that you “leave it the way you found it.”• It is your responsibility to know and follow all ridership rules and expectations.

Violation of Ridership Rules: Improper behavior on the bus may endanger one’s own safety and the safety of others. Drivers are encouraged to report incidents of misconduct to school officials. Improper conduct could result in loss of riding privileges. Parents/Guardians will be responsible to pay for any damage done to or on a bus by their child. Parents/Guardians are responsible for transportation when a student’s ridership is suspended.

Safe Schools — Maintaining a Safe School Environment: Inspections, Search, Investigation, Interrogation and Arrest on School Grounds

Searches Conducted by School Officials

Periodic searches may be conducted for any reason, at any time, without notice, without student or parent/guardian consent, and without a search warrant. A search may only be conducted by authorized individuals. An authorized individual is the principal, or such person as the principal may designate. When conducting a search, the following rules apply:

1. A search may be conducted on any area of property under the jurisdiction of the school and shall include items of personal property in the control of or possession of a student, including that which may be abandoned or discarded.
2. Searches shall be conducted based upon reasonable suspicion that school rules or town, state, or federal laws have or will be violated.
3. Administrative staff are authorized to seize illegal items or contraband that may present a threat to the safety of the individual or others. Items seized shall be retained in proper order to preserve a controlled chain of custody for purposes of prosecution by the police department.
4. Items that are used, or may be used, to disrupt or interfere with the educational process or environment may be temporarily removed from a student's possession.

Inspection of Student Lockers

The locker assigned to a student is the property of the School District. The school provides a locker for convenience of the student to be used solely and exclusively for the storage of school-related materials. No student shall use the locker for any other purpose.

A locker may be searched as determined necessary or appropriate without notice, or consent. The search may be conducted by a District administrator, a directing principal, an assistant principal, or police and fire personnel upon request, or a school employee designated by the Superintendent or directing principal and/or designee. This right will be exercised when there is reasonable suspicion to believe that a locker may be used to conceal anything illegal or evidence of a violation of school rules or Board policy, however, random locker searches may be conducted by administrative staff. Any unauthorized item found in the locker may be removed. Items removed from the locker may be held by the school for return to the parent(s)/guardian(s) of the student or retained for disciplinary proceedings or turned over to law enforcement officials. The adult student or parent/guardian of a minor student shall be notified of items removed from the locker and turned over to the law enforcement officials.

Search of District-Sponsored Email Accounts

The school district provides students with an email address and imposes rules on its use. The District requires that the address be used only for school-related purposes. Schools may monitor what you view, send or receive on district provided computers or email accounts. There is no expectation of privacy in a district-issued email account. This includes any and all accounts connected to the district-issued email account, including but not limited to Google Chat, Google Classroom, Google Calendar and Google Drive. School officials may not censor what is said in an email simply because they disagree with the thoughts. For example, you may criticize a school policy or a school board action. You have the right to express your views on public issues and doing so does not itself interfere with the school's educational goals.

Using the account in a way that violates the expectations set out in this Code Book, or the District's Network Use Policy may result in disciplinary action.

Search of Electronic Devices

The Directing Principal and/or designee may search the contents of audio, video and photographic recording devices belonging to or in the possession of a student when the audio, video or photographic device is on school property or at a school sponsored event and when there is reasonable grounds to suspect that a search will lead to evidence that a student has violated or is violating either the law or school rules or policies.

Audio, video and photographic devices include but are not limited to audio recorders, cameras, video cameras, laptop computers, tablets, and cell phones.

Devices may be held by the school for return to the parent(s)/guardian(s) of the student or retained for disciplinary proceedings or turned over to law enforcement officials. The adult student or parent/guardian of a minor student shall be notified of devices turned over to law enforcement officials.

Search of School Building or School Grounds

By police, on request of school authorities:

If a Directing Principal and/or designee has information that they believe to be true, i.e., that evidence of a crime, stolen goods, drugs, weapons or other items of an illegal or prohibited nature is located on a student's person, in a student's locker, desk, or student's or non - student's automobile, police assistance will be requested.

Periodic sweeps of common areas, storage facilities, vehicles parked on school property and lockers owned by the district for contraband including drugs, weapons or other items of an illegal or prohibited nature will be conducted with cooperation by police and/or law enforcement.

Investigation, Interview, Arrest/Apprehension, and/or Search

School officials shall cooperate with appropriate law enforcement agencies regarding the investigation, interrogation, arrest and search of students on school property or in school buildings.

By police, on request of school authorities:

- a. A Directing Principal and/or designee may exercise their discretion in determining whether to request assistance of police in investigating a crime, or the allegation of a crime, committed in their school building and/or on school grounds during school hours. If assistance is so requested, it shall be directed to the Police Department of the municipality in which the school building and/or grounds are located.
- b. If the Directing Principal and/or designee requests assistance, a police officer may conduct an investigation within the school building and/or on school grounds and interview students as possible witnesses in school during the school day. The Directing Principal and/or designee shall be present during the interview unless the student requests that they not be there. A non-uniformed police officer shall be used if possible.
- c. If the investigation focuses on a particular student as a suspect of a crime, the Directing Principal and/or designee and the police officer will follow the general guidelines set forth with respect to Interrogation of Suspects in Schools by police on request of School Authorities, Search and Arrest.

Expectations for Student Dress and Appearance

Students whose appearance interferes with the educational process by drawing undue attention of other students or school personnel, by posing as a potential safety hazard to themselves or others or by being interpreted by school personnel to be offensive in either the message that is implied or to the parts of the body that are revealed, will be expected to change clothing. If the expectations are not met or a student refuses to comply with the set expectations, parents will be notified of insubordinate behavior and other consequences may be applied.

If there is a question as to whether or not any student's apparel or appearance is appropriate, school officials will determine appropriateness and work with the student and parent/guardian to remedy the concern.

Procedures for Special Actions

E. Request to Withhold Directory Data

Directory data, as defined by Wisconsin State Statute 118.125 (1)(b) are “pupil records which include the pupil’s name, address, telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, photographs, degrees and awards received and the name of the school most recently previously attended by the pupil.”

If any parent/guardian does not wish any or all of these items disclosed, you must make that known by opting your child out during annual registration. You may opt out of releasing your child’s data in the Media Release section of the annual registration in your Infinite Campus Parent Portal Account. Such action will result in the removal of such as data from any and all lists produced by the Racine Unified School District including graduation lists, school yearbooks, special lists relating to activities, athletics and special programs or publications which would be available to the public. The student’s records will be appropriately marked by the records custodians to indicate the items the District will designate as directory information about the student. This designation will remain in effect until it is modified by the written direction of the student’s parent/ guardian or the eligible student.

Legal Requirements and Protocol

The following information is provided so students and parents may be aware of some required procedures if either of the following situations occur.

Regarding Child Abuse — In compliance with state law, many categories of District staff members are required to inform an appropriate Human Services Department or law enforcement agency if the staff member has reasonable cause to suspect that a child seen in the course of professional duties has been abused or neglected or has been threatened with an injury and that abuse of the child will occur. It is not the responsibility of school personnel to prove the child has been abused or neglected, nor to determine whether the child is in need of protection. If necessary, the Human Services Department may take a student into “temporary physical custody”. School personnel are not to contact the child’s family or any other person with regard to the report being made, to determine the cause of any suspected abuse or neglect or to notify that a student has been taken into temporary physical custody. This type of contact is the responsibility of the agency receiving or investigating the report.

District Disclosure of Information — School districts are required by law to disclose student directory data (Wisconsin Statute 118.125) to the city attorney, as well as other specified entities, for the purpose of enforcing school attendance, investigating alleged criminal or delinquent activity or responding to a health or safety emergency. This disclosure can only be made if the district has provided the required student directory data notice to parents/ guardians.

If you wish to have your child's directory data withheld, you must make that known by opting your child out during annual registration. You can opt out of releasing your child's data in the Media Release section in your Infinite Campus Parent Portal Account.

Enforcement of the Code of Rights and Responsibilities — The preface of the Code of Rights and Responsibilities indicates that Wisconsin §120.13 allows for rules to maintain a “good decorum and a favorable academic atmosphere” in the school. This statute also indicates that principals and teachers may also make rules with the consent of the Board of Education. Mission Statement

Our mission is to develop a sense of community and responsibility for all young adults.

What is CRIMESTOPPERS?

The Quick Tip Program is a program designed to make the Racine schools and campuses a safer learning environment by getting weapons and drugs out of the school immediately with an anonymous cash reward given to the caller with information that leads to an arrest.

How does it work?

1. The caller sees the weapon or drugs on or off campus.
2. The caller calls **(262) 636-9330** or **(888) 636-9330** with the information. Or, sends a text message to: RACS + message to **CRIMES (274637)** or online to **racine.crimestoppersweb.com/school.aspx**.
3. CRIMESTOPPERS call taker gives the caller a code number and advises them to call back in 2 hours for reward status.
4. CRIMESTOPPERS call taker immediately calls an administrator of the school involved giving the received information to them.
5. The administrator notifies the off-duty officer or liaison officer in the school for an immediate investigation.
6. If a weapon or drugs are recovered, the officer determines if an arrest can be made.
7. The investigating officer calls the Crime Analysis Office informing them the status of the tip or its disposition.
8. The Crime Analysis Office then coordinates the reward payment when the caller calls back.

Results: Weapons and drugs are out of schools!

Where does the money come from?
