Therapeutic Services
Certified Nurses Assistant (CNA)

Medical Terminology
Prerequisite: None. This course is designed for students interested in pursuing careers in the medical field. Students learn medical terminology which will enhance communication skills for all health-related careers. Training includes CPR-C certification. Health Occupations Student Association (HOSA) leadership organization membership is encouraged. Fee required for CPR training. Recommended for students interested in the Health Youth Apprenticeship program.

Health Careers (AS) Advanced Standing
Prerequisite: None. An introduction to health related careers. Guest speakers and field trips give insight into health careers. Includes first aid and CPR training. HOSA leadership organization membership is encouraged. Students may earn 3 elective Gateway Technical College credits with a B grade or better in this course.

Language of Medicine *Weighted Credit
Prerequisite: Medical Terminology. This class is designed to teach medical terminology within the body systems. Building on the knowledge from beginning medical terminology, an emphasis is placed on anatomy and diseases of the body. Class work includes CD-ROM activities, videos, and worksheets. To reinforce anatomy, students will use Anatomy In Clay, a hands-on activity for students to build body systems in clay using an 18” skeleton. There is a lab/book fee for this class. Students may earn 3 elective Gateway Technical College credits with a B grade or better in this course.

Health Youth Apprenticeship (HYA) 1
Prerequisite: Department Approval. Grade 11 entry only with concurrent enrollment in Health Occupations Training 1. An application must be filled out and approved before scheduling this course. An apprenticeship is a two-year program that provides instruction through classroom and work experience. For this apprenticeship, the school, a medical facility and the student form a partnership. The end result for the student is state certification in the HYA which will be a valuable asset for students entering any health-related field. This is yearlong course provides a link between the business/school partnership, reinforces skills learned at the work site, develops leadership and includes basic anatomy and physiology information. Fee required for HOSA leadership organization. Students may earn 3 elective Gateway Technical College credits with a B grade or better in this course and 3667, Health Occupations Training 1.

Health Occupations Training 1
Prerequisite: Department Approval. Grade 11 entry only with concurrent enrollment in Health Occupations Training 1. This course is part of the Health Youth Apprenticeship (HYA) program. Students are trained to be Certified Nursing Assistants (CNA’s take care of patients’ needs). After successfully completing the training, they work in a medical facility as a paid employee. The competencies learned in this yearlong course focus on client care, certification in taking blood pressure, professional CPR and office skills. Students may earn 3 elective Gateway Technical College credits with a B grade or better in this course and 3666, Health Youth Apprenticeship (HYA) 1.

Health Occupations Training II
Prerequisite: Health Youth Apprenticeship (HYA) 1. Grade 12 only with concurrent enrollment in #3669. This classroom course is the second year of the HYA program. Students will broaden their experiences in the health field, continue leadership development through work and the HOSA organization, and master the competencies required for the HYA state certification. HOSA membership fee required.

Health Occupations Training II
Prerequisite: Health Occupations Training (HYA) 1. Grade 12 only with concurrent enrollment in #3668. The student will be trained at local medical facilities. Training will be in physical therapy, pharmacy, radiology and laboratory work. All training will meet the competencies required for the HYA state certification.
