What is Infinite Campus?

Infinite Campus is a student information system that is accessed through the Internet. Starting for Summer School 2015 and the rest of the District for the 2015-16 school year, Racine Unified School District will use this system to track all student information including attendance, test scores, grades and demographic data. As a fully integrated student information system (SIS), Infinite Campus includes a parent portal among its many features. Infinite Campus will replace Skyward, the current RUSD student information system.

Infinite Campus Media

These videos provides a brief overview of what Infinite Campus does.

- ➔ Summer School Teacher Training: June 15, 2015
- ➔ Scheduler Training: June 16, 2015

★ **Go-Live: July 1, 2015**

- ➔ Teacher Coach Training: August 11, 2015
- ➔ Teacher Coach Training: August 12, 2015
- ➔ Teacher Training: August 27, 2015

What are Some Benefits of Infinite Campus?

- The entire Infinite Campus system is web-based and allows all users to access information from anywhere at anytime.
- Teachers will be able to use Infinite Campus to take attendance, record assignments and grades, create seating charts and send and receive messages to those with a stake in the success of our students. Additionally, teachers can use Infinite Campus to develop individual learning plans and lesson plans/curriculum maps. Because Infinite Campus is web-based, teachers can do all of this from anywhere they have an Internet connection.
- Parents and students will be able to log into Infinite Campus from any computer or mobile device and have access to schedules, grades, assignments, attendance information and food service account management. Infinite Campus has email capabilities that will allow parents to be in easy contact with teachers and school staff.
- Infinite Campus contains student administration features, which will help automate the K-12 education records process. For example, attendance, behavior, enrollment, health records, special education records and school census records can all be managed using Infinite Campus.
- Infinite Campus has the ability to do scheduling, help with graduation planning, online registrations and the retrieval of transcripts.
- Infinite Campus will streamline school service functionality. For instance, Infinite Campus has the ability to administer our fee management program and handle our food service program.

What Resources are Available to District Users?

The Campus Community is a free online resource for all Infinite Campus users in the District. Campus Community contains a wealth of information including:

- Step-by-step guided instructions;
- Hands-on virtual labs and role-based learning for all District staff;
- Videos and simulations — including self-paced learning tools; and
- Forums where our staff can interact and learn with thousands of Campus users across the country.

The Campus Community will be available to all Campus users and is accessible via our RUSD's Infinite Campus system. Single sign-on access ensures that you can easily access Campus Community once you have created your CampusID.
